Step Four: Launch the Ad Designer. Type your student's name in the headline box exactly as you wish it to be printed in the yearbook. Then type your personal message in the box below it. Hit next.

Step Five: Upload photos for your tribute ad. Before uploading please read all bullets below.

- Your photos need to be scanned at 300 DPI. You can use your home scanner or go to Walgreens, CVS, Creve Coeur Camera, Walmart (or anywhere that will scan photos and save them to a disk or your flash drive).

- Please note, printouts of photos made on inkjet printers do not scan properly and will appear grainy, so please avoid scanning these. We are not responsible for original photo quality that results in poor scanned imaging.

- **WE CANNOT USE SENIOR PROOFS.**

- All photos must be rectangular or square. Do not send odd shapes.

- We suggest you do not upload pictures containing boyfriends/ girlfriends as often relationships change and the senior ad cannot.

- The yearbook staff makes every attempt for a high quality, error free ad. Babies need to be diapered in infant/toddler photos.

- iPhone photos are permitted if the original is uploaded at the actual size of the photo. Please do not take a photo of a photo and upload that. Do not download photos from Instagram, Facebook or other social media and upload these. They do not have enough resolution. We cannot accept filtered photos.

- The yearbook staff builds the remaining yearbook pages around the senior tributes ads, which is why the deadline must remain this early.

(Important note: Parents are responsible for the quality of the photos submitted and acknowledge low resolution may not print properly. It is the responsibility of the parent to provide the yearbook staff with only high resolution photos.)

Step Six: Check out and pay for your tribute.

If you have a suggested layout or order of which pictures you would like to be dominant, please draw this layout on a piece of paper and upload a photograph of the layout when submitting your tribute.
